Pramatha H D

Bengaluru, Karnataka, India — hdpramatha17@gmail.com — +91 82175 61968 — linkedin.com/in/pramatha-hd

Objective

Final-year B.E student in Electronics and Communication Engineering with a strong foundation in Data Analytics, visualization, Programming, Problem-solving and machine learning. Skilled with Python, SQL and Microsoft Power BI, with hands-on-project experience across multiple domains. Passionate about solving business problem through data-driven decision-making and eager to contribute to innovative analytics and technology teams. Seeking to contribute as an Analyst, applying technical and analytical expertise to deliver innovative solutions.

Education

Nitte Meenakshi Institute of Technology — *Bengaluru, India*
Bachelor of Technology in Electronics and Communication — *2022 – 2026*

Govt PU College — *Sagara, India*
Pre-University Course — *2022*

- Percentage: 60%

Radha Krishna Public School — *Sagara, India*
Secondary School (10th Grade) — *2020*

- Percentage: 85%

Technical Skills

Programming & Algorithmic Logic: Python (Libraries)

Data Visualization: Excel, Power BI, Seaborn, Matplotlib

Database & Querying: MySQL

Data Analysis & Statistics: Statistical Analysis, Data Preprocessing.

Machine Learning: Supervised & Unsupervised learning, Model evaluation and validation, Scikit-learn (TensorFlow, Keras)

Tools and Platforms: Jupyter Notebook

Core Competencies: Problem-Solving, Teamwork, Adaptability

Projects

Customer Churn Prediction using Deep Learning — *2024*

- Led a deep learning project on the American Bank Dataset to predict customer churn using Python
- Employed TensorFlow and Keras to preprocess data, engineer features, and develop predictive models
- Visualized key insights to inform strategic decision and enhance customer retention strategies

Netflix User Analysis — *2024*

- Analysed Netflix user dataset using Python to understand viewing patterns and subscription trends
- Performed data cleaning, exploratory data analysis, and visualization to uncover user preferences

Advertisement Analytics & Interactive Dashboard using Power BI — *2024*

- Developed an interactive dashboard using Microsoft Power BI to analyse and track key metrics
- Created dynamic visualization, charts and slicers to uncover trends and patterns
- Delivered actionable insights through a visually intuitive dashboard to support data-driven business decision

Certifications

Python For Data Analytics and Machine Learning Bootcamp — *Udemy, 2025*

Data Science Internship Completion — *Place Mantra, 2024*

Discovering Entrepreneurship — *Cisco Networking Academy, 2024*

Achievements

- Successfully planned and coordinated two consecutive hostel cricket tournaments, ensuring seamless execution
- Led the hostel volleyball team as captain, securing first place in the inter-hostel tournament
